Summary

Highly motivated IBDP student with strong interests in Data Science, Mathematics, and Computer Science. Experienced in AI-focused research programs, community-driven sustainability initiatives, and leadership roles across social impact, heritage preservation, and STEM innovation. Adept at teamwork, problem-solving, and applying technology for real-world impact.

Education

Innomatics Research Labs, Data Science Program - Self-study in AI - Building NLP & GenAI models and applications for hate speech detection and Iron Dome interception analysis	May 2024 – May 2026
Chatrabhuj Narsee School - International Baccalaureate Diploma Programme (IBDP) - Extracurriculars: STEM Club; Soccer Team	Apr 2024 – Jul 2026
Lakshdham High School Indian Certificate of Secondary Education (I.C.S.E)	Jun 2014 – May 2024

Leadership & Initiatives

Web Developer, IJHC (Israeli Jewish Heritage Center), Israel Developed and continue to maintain IJHC website to promote Jewish heritage, improve community engagement, and share resources online	Sep 2025 – Present
Model Analysis Researcher, The New York Academy of Sciences Design innovative solutions to improve solar energy storage and distribution using salt-based energy storage AI model	Aug 2025 – Present
Program Manager, HWCT India Foundation - Lead food distribution initiatives for underprivileged children - Organize fundraising for balanced nutrition and hunger mitigation - Implement sustainable waste-to-compost systems supporting circular economy models - Conduct community education on composting, organic farming, and soil health	Mar 2025 – Present
Program Participant, Veritas AI Developed AI-Driven Brain Tumor Segmentation and Analysis using dataset of 4715 native T1 MRI images from 152 patients using Deep Learning Models	Nov 2024 – Dec 2024
Founder/Editor, Project NavJeevan – The Purpose Academy - Generated 300kg waste into compost; boosted 150-tree survival and CO2 capture - Publish biweekly newsletters promoting composting, RPET-recycling, and sustainability awareness in community - Promote awareness via HundrED programme - Selected to present at 1M1B (1 Million for 1 Billion) UN summit	Oct 2024 – Present
Founder, Jewish Heritage Virtual Museum Founded online museum preserving the history and culture of India's Bene Israel community through digital archives and oral histories	Jun 2024 – Present

Volunteer & Internship

Tutor, Chatrabhuj Narsee School	Sept 2025-present
Teaching machine learning to middle school students of STEM Club	
Java Development Intern, Code Clause	Jun 2024
Developed Online Banking System and Calculator using Java; uploaded to GitHub	
Java Development Intern, LetsGrowMore	Jun 2024
Developed Scientific Calculator, Currency Converter, and Search Engine Editor	
CRY-Child Rights and You, Mumbai, India	Jun 2024
- Promoted public awareness and fundraising endeavors through onsite and online activities - Encouraged volunteering efforts addressing climate change	

Awards & Achievements

- Selected as Top 100 Changemaker** by 1M1B UN Summit, Geneva, Project NavJeevan (Oct 2025)
- Won Best Project** at UC Berkeley's Sutardja Center for Entrepreneurship and Technology for reducing landfill waste and promoting sustainable agriculture, Project NavJeevan (April 2025)
- Selected as Youth Ambassador**, HundrED's Global Program (March 2025)
- Delegate** representing Sweden in WWII discussions, I.R. MUN (Aug 2024)
- Awarded \$3,500 USD Grant** for Jewish Heritage Virtual Museum, EV Capital Fund (June 2024)
- Awarded Silver Star Medallion**, Bribooks (May 2024)

Skills

- Data Structure
- Software Development Lifecycle
- Machine learning
- Object Oriented Programming
- Exploratory Data Analysis (EDA)
- Python, Java

Certifications

- Deep Dive: AI + Medicine
- Introduction to Statistics
- Exploratory Data Analysis
- Python

Languages

- English (Fluent)
- Hindi (Fluent)
- Marathi (Fluent)
- Hebrew (Basic)
- Spanish (Basic)
